

Beading Needles and Bead Boards

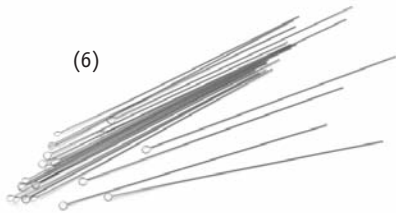

Beading Needles (6) are well-ried for decades. They are very easy and flexible to use: after threading simply close the eye carefully with a pair of flat nose pliers.

GRIFFIN Beading needles are available in three sizes.

Bead Boards (7) are helpful equipment to prepare single or multi-strand necklaces. The grey flocked boards have space for three or four strands. There are recessed wells for beading supplies such as needles, pliers, small clasps and beads, etc.

GRIFFIN Bead Boards are available in two sizes: one to prepare up to three-strand chains with a length up to 97 cm, and one to prepare up to four-strand chains with a length up to 50 cm.

ACCESSORIES AND AIDS

(1)

Glues

GRIFFIN Super Glue (1) is ideal for use when making jewelry. It quickly bonds almost all materials and is not as liquid as the usual fast-setting glues on general sale. 10 g bottles which include three syringes to apply the correct amount.

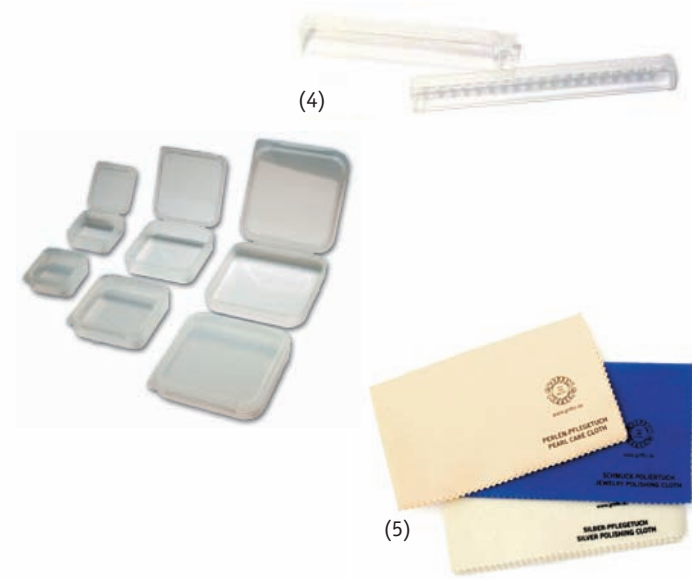

(3)

GRIFFIN Bead Cord Glue (2) This glue is specialized for twines, threads and felt fabrics to fix tied knots and textile beads permanent and supple on silk and nylon cords. It is totally free of softeners and solvents. 10 g bottle which include three syringes to apply the correct amount.

Shellac 100% natural (3) is well-tried for centuries to glue bell caps, endings, etc. It has a low melting point and dries quickly. To work with shellac just simmer it until it starts getting soft. After cooling down the shellac hardens again.

These three GRIFFIN glues are also available as a complete set.

Storage Boxes and Caring Cloth

Storage boxes (4) made of translucent plastic are great for storing a variety of small items, findings, beads, gems, and more. We offer them in three different sizes to store small items and in one telescopic for beading needles.

This GRIFFIN **Jewelry Polishing Cloth** (5) is most suitable for the general cleaning and polishing of jewellery.

Pearls are a natural product exposed to a variety of influences when worn. Cleaning the pearls with a GRIFFIN **Pearl Caring Cloth** (5) after wearing will protect them from harmful influences and bring out their natural lustre.

To prevent silver parts becoming tarnished with time, regular cleaning with the GRIFFIN **Silver Care Cloth** (5) is recommended. Polishing also brings out the natural shine of tarnished silver.

We strictly recommend:

Never use cleaning agents when cleaning jewelry!
